

New Cleaning Procedures in Place as of 5/30/2020

New cleaning procedures will include a thorough cleaning of all surfaces with disinfectant as well as sanitizing commonly touched items including; remote controls, all door, cabinet and appliance handles, light/fan wall switches and fan pull chains.

All surfaces including kitchen and bathroom counter tops, tv stands, coffee tables, side tables, dressers and nightstands will be thoroughly cleaned with disinfectant.

All used kitchen utensils including glasses, dishes, silverware, pots/pans are always required to be run through the dishwasher between each stay. The cleaning staff will make sure that it is all cleaned and put away before check-in.

All linen is dropped off by a professional laundry service, so no existing linen will be from the previous renter.

All cleaning staff will wear masks and gloves. Gloves will be properly disposed of and changed with new, unused gloves after staff leaves a unit and before entering a new unit. Hands will be washed/sanitized between changing of gloves.

During your stay, housekeeping and maintenance services may be limited to emergency only issues. Non-urgent issues may have to wait until after your departure. If we do need to enter the unit for any reason, we will please ask if possible that nobody is present at the time and we will wear a mask and gloves when we enter, and then inform you when we have left.
